

## Advance Sweeper Parts

Think about how tiresome it will be to tidy up your very own home right after having a big party, with no assistance from cleaning machines. In the past, the time upholstery and carpets had the dust beat out of them manually; brushes, brooms and cleaning cloths were the state-of-the-art cleaning supplies of that time.

The founder of Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who really liked to work on electrical motors. After founding his business during 1906, he started to produce motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's vision from the beginning was to have a global business selling products globally.

The Nilfisk C1 was a tremendous breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and can be operated by a single individual. This creation came in a time where many cleaning equipment were massive and needed at least 4 operators, hence, the Nilfisk C1 changed everything and developed the method we clean forever. The genius behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an existing crisis; things get dirty and should be cleaned frequently, without too much effort.

Gradually, the company Nilfisk-Advance expanded throughout the years. In the early 1980's the business grew more rapidly when the business became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance ahead within the trade, aiming to be an active global player in making professional cleaning machines. Nilfisk-Advance is currently represented in every part of the world due to gradually acquiring many small businesses to be able to grow their product portfolio and presence in new markets. They are really proud to present various cleaning solutions to fit each and every requirement.
